SUMMARY

B.Tech in Information Technology graduate with hands-on experience in frontend web development using HTML, CSS, JavaScript, React, and Next.js. Built responsive web applications including a Smart Calculator and a multi-step Student Registration Form with validation and dynamic navigation. Seeking an entry-level Frontend Developer role to apply and further develop web development skills.

EDUCATION

Indira Gandhi Delhi Technical University for Women (IGDTUW), New Delhi
B.Tech in Information Technology, CGPA: 7.44 *2026*

Kendriya Vidyalaya, Rohini, New Delhi
Class XII – Science, Aggregate: 84% *2022*

Government Girls Secondary School, Burari, New Delhi
Class X, Aggregate: 79.83% *2020*

EXPERIENCE

AI Powered Full Stack Development June 2025 – July 2025
IGDTUW

- Completed practical training in full-stack web development covering HTML, CSS, JavaScript, React, and Next.js.
- Gained exposure to frontend and backend development through practical assignments and mini-projects.

Python and Machine Learning June 2024 – July 2024
IGDTUW

- Developed and implemented machine learning models using Python libraries including Scikit-learn, Pandas, and NumPy.
- Worked with data preprocessing, feature engineering, and model evaluation techniques.

PROJECTS

Student Registration Form | React | GitHub | Live Demo

- Built a multi-step student registration form with real-time field validation.
- Used controlled components and React Hooks for managing form state.
- Implemented field validation, error handling, and dynamic navigation between form steps.
- Added Local Storage to preserve form data across steps and page refreshes.

Smart Calculator | React

- Developed a responsive calculator supporting arithmetic operations, percentages, decimals, and keyboard input.
- Implemented state management using React Hooks (`useState`).
- Added input validation and error handling for invalid expressions.

TECHNICAL SKILLS

Frontend: HTML, CSS, JavaScript, React, Next.js
Programming & Data: Python, NumPy, Pandas, Matplotlib, Seaborn, SciPy, Scikit-learn
